

EUCALL Project Website

Deliverable D2 / D2.1

Graham Appleby, 24.02.2016
European XFEL Facility GmbH, Hamburg, Germany

The EUCALL Project Website can be found at www.eucall.eu and contains pages with the following information:

Home – News

About – About EUCALL

- About Free Electron Lasers
- About Optical Lasers

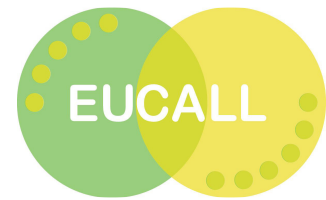

Network – European XFEL

- DESY
- Elettra
- ELI
- ESRF
- HZDR
- Lund University
- PSI
- FELs of Europe
- Laserlab-Europe

Organisation – Steering Committee

- Scientific Advisory Committee
- Synergy Board
- Executive Board
- Work Packages
 - > WP1 Management
 - > WP2 Dissemination and Outreach
 - > WP3 Synergy of Advanced Light Sources
 - > WP4 Simulation of Experiments
 - > WP5 Ultrafast Data Acquisition
 - > WP6 High Repetition Rate Sample Delivery
 - > WP7 Pulse Characterisation and Control
- Milestones
- Deliverables

Events

Bursaries for Young Researchers

Media – Social Media
– EUCALL in the Press

There is also the option to access the “**Intranet**” which is an internal area for EUCALL members, under European XFEL’s *Alfresco* server – which hosts a Document Library, including the EUCALL Identity Package, meeting presentations and an private library for the Coordinator Team.

The website contains a further page to **Contact** the EUCALL dissemination/communication manager, and finally the **Imprint** which shows the provider of the website, owner of the website and information about several other legal matters.

The content of the EUCALL project website has been approved by both the Steering Committee and the Executive Board, as well as by the PR departments of each of EUCALL’s facilities.

This design was implemented by EUCALL’s Dissemination and Outreach Work Package (WP2) leader, with the support of DESY’s IT group and European XFEL’s PR group.
