

Design of an Optimised XGM

EUCALL Milestone MS12 / MS7.1

Graham Appleby, European XFEL Facility
29.09.2016

The results of the optimised x-ray gas monitor (XGM) designs have been reported to the Executive Board on 29.09.2016. The details of these results can be found in the document of EUCALL Deliverable 7.1 / D8 – “Ultimate XGM Sensitivities at FEL and ELI Sources”
