

## **EUCALL – First Results of WP3 Synergy**

Graham Appleby, European XFEL Facility  
24.03.2017

The first results of EUCALL WP3 data collection and analysis were presented to the Synergy Board. The following documents were created:

- 1) Super-matrix of "Instrumentation at Advanced Laser Light Sources " and an accompanying report
- 2) Technology Transfer at Advanced Laser Light Sources
  - a. Joint Development of Technology with Industry
  - b. Spin-offs and Commercialisation of Intellectual Property
  - c. Industrial Access at Advanced Laser Light Sources
- 3) Cross-community Projects between Laser and Accelerator RIs

EUCALL's Synergy Board and other WP3 members will analyse these reports and submit their own observations and recommendations to the WPL by 15.05.2017. These observations and recommendations will be compiled and then discussed at the EUCALL Annual Meeting 2017 during 07-09.06.2017. The results of this analysis will contribute to the WP3 Deliverable D20 "Synergy and Innovation Potential of EUCALL" (due March 2018).
